If one needed a wizard, Waterbury was the place to go . . . and a Temple, well that was the best one could get. Eamon Temple was just such wizard, the only problem was that he didn't want to be. He was happy living his life as a blacksmith with his two small boys and a life free of the messy business of magic. Until one day his life erupts into chaos and he is called on to be the very thing he has tried for years to leave behind . . . because only in this way, can he save those he holds most dear.
